

February 7, 2012

To Whom it may concern,

We have been working with QATestLab with respect to testing an iPad and Web-based Software application and they have consistently performed top-notch manual testing of our mobile application. Independent verification provided by QATestLab helped us to find defects that we had previously not found, and saved our time during the completion development stage as well as excellent and professional communications.

We will be sure to use your testing services again in the future. Thank you to your entire team for all of their hard work as they truly deserve it.

Yours Sincerely,

Dr. Robert Abbate
