## Summary

|   |          |
|---|----------|
| <b>Sign up test case example</b>                            | <b>4</b> |
| <b>Buying a product test case example</b>                   | <b>5</b> |
| <b>Invalid passwords during signup test case example</b>    | <b>6</b> |
| <b>Create User without username fails test case example</b> | <b>7</b> |
| <b>Resend email verification test case example</b>          | <b>8</b> |

**Sign up test case example:**

| ID    | Scenario   |
|-------|--|
| C001  | Should be able to successfully register on website         |
| Given | I am new to the website                                    |
| And   | I want to register for a user account                      |
| When  | I go to the registration form                              |
| And   | I complete all the required registration details correctly |
| Then  | I will be registered on the website                        |
| And   | I will be automatically logged in                          |

**Buying a product test case example:**

| ID    | Scenario   |
|-------|--|
| C002  | Should be able to buy a product as guest                                   |
| Given | there is a product named "Product A"                                       |
| When  | I go to the product page for "Product A"                                   |
| And   | I add the product to my shopping cart                                      |
| Then  | I should see 1 product in my shopping cart                                 |
| When  | I request to check out   |
| Then  | I should see the account creation form                                     |
| When  | I create an account  |
| Then  | I should see the checkout form with 1 product, "Product A"                 |
| When  | I check out  |
| Then  | I should see the checkout success page with 1 product, "Product A"         |
| And   | I should receive a checkout confirmation email with 1 product, "Product A" |

**Invalid passwords during signup test case example:**

| ID    | Scenario  |
|-------|---|
| C003  | Should be able to see an error message during register with an invalid password                           |
| Given | I launched the application  |
| And   | I am on the "Signup" screen   |
| When  | I entered valid data to the "First name", "Last name" and "Email" fields                                  |
| And   | I entered the invalid password (less than 8 characters) to the "Password" and "Confirm password" fields   |
| And   | I click the the "Signup" button   |
| Then  | I should see the "Password length must be at least 8 characters" error message above the "Password" field |

**Create User without username fails test case example:**

| ID    | Scenario  |
|-------|---|
| C004  | Should be able to see an error message during register without username   |
| Given | I launched the application  |
| And   | I am on the "Signup" screen   |
| When  | I don't fill First Name but fulfill remaining mandatory fields: "Last name", "Email" "Password" and "Confirm password" fields |
| And   | I click the the "Signup" button   |
| Then  | I should see the "First Name should be filled" error message above the "First Name" field                                     |

**Resend email verification test case example:**

| ID    | Scenario  |
|-------|---|
| C005  | Should be able to resend the verification link                            |
| Given | I launched the application  |
| And   | I am on the "Signup" screen   |
| When  | I Submitted the form with valid data                                      |
| Then  | I can see opened the "Verification" screen                                |
| When  | I went to the login screen and tried to log in with an unverified account |
| Then  | I can see the "Account not yet verified" error screen                     |
| And   | I can see the "Resend verification" button on the screen                  |
| When  | I tapped the "Resend verification" button and go to the email inbox       |
| Then  | I received the copy of the "Verify Email Address" email                   |
| When  | I tapped the "Verify Email Address" button                                |
| Then  | I can see opened "Email Address Verified" confirmation page               |
